Figma Live Reel: [Insert Google Drive Link]

PROFESSIONAL SUMMARY

Creative and technically agile Graduate specializing in Visual Layouts, Spatial Asset Composition, and Front-End Interaction. Highly proficient in **Figma and Adobe Photoshop** with a proven capability to build interactive user interface prototypes, manage dynamic smart-component states, and engineer smooth micro-interactions. Possesses a deep foundational mastery of aesthetic design, color logic, and pixel-precise alignment, balanced by hands-on understanding of functional HTML/CSS structures and runtime performance optimization. Eager to bring rapid software execution speeds and creative problem-solving to **Som Media** as a Fresher Web Designer.

TECHNICAL SKILLS

UI/UX & Web Design: Figma (Auto-Layout, Components, Prototyping), Photoshop

Interactivity & Libs: GSAP (GreenSock), Lenis Smooth Scrolling, Git / GitHub

Core Creative Tech: 3ds Max, V-Ray, Maya, Unreal Engine 5 (Asset Optimization)

Web Development: HTML5, CSS3, JavaScript Core Basics

CMS & Marketing: WordPress Base, Elementor, On-Page SEO Foundations

PROJECTS & PORTFOLIO PIECES

Interactive Music Player UI — Figma Prototype

Personal Project

- Designed a sleek, dark-mode music interface featuring custom-curated digital artwork framing and strict spatial padding.
- Engineered live interactive carousel states utilizing Figma's Smart-Animate framework to smoothly transition track panels and navigation indicator dots on click triggers.
- Maintained exact grid hierarchies, unified typography parameters, and fluid vector alignment across distinct interface modes.

Personal Web Portfolio — HTML/CSS & Front-End Animation

Live Production

- Programmed, optimized, and natively hosted a custom creative portfolio website running live on GitHub Pages.
- Integrated high-fidelity web mechanics utilizing GSAP and Lenis to deploy fluid smooth-scrolling architecture and dynamic ambient back-lighting visual effects.
- Optimized structural script assets and media compression to achieve aggressive load pacing and responsive presentation across modern mobile and desktop screens.

EDUCATION

Degree in 3D Animation & VFX

Graduation: June 2026

Asian Academy of Films and Television (AAFT), Noida

- **Core Focus:** Visual Composition, Timeline Logic, Asset Optimization, Lighting Math, Color Flow.

KEY STRENGTHS FOR SOM MEDIA

- **High-Speed Pipeline Mastery:** Documented capacity to learn deep software environments fast, adapt pipelines, and turn around rapid revisions under rigid layout timelines.
- **Trained Aesthetic Eye:** Rigorous creative schooling ensures zero tolerance for structural misalignments, uneven kerning, muddy palette values, or poor structural spacing on web templates.
- **Immediate Production Readiness:** Concluded final academic blocks and completely unencumbered to immediately onboard, join full-time, and begin studio production.
